## 6 NEWS

## HERE ARE THE ED LINES

I'm as mad as a monstrously mental March Hare this month, readers. Spring has sprung, the sun is shining, my goatie beard has made a belated (bleated?) come-back and the C64 scene is, well, if not as buoyant as ever, then certainly still thriving!

Commodore finally bundled the curvaceous C64 with a disk drive just before Xmas, and put it on sale for the very reasonable price of just £150 (while stocks last...). Praise be! For now our little 8-bit buddy is finally set to give the 8-bit consoles a real run for their money. I wonder just how many C64 packs did sell last Christmas?

On the software front things are looking up, too. We're still waiting for a finished version of Lemmings to arrive, but our friends at Alter Developments in Holland assure it won't be much longer. Here's hoping!

Meanwhile, life goes on in the Commodore Force office. Ian's hyperventillating at the prospect of his girlfriend moving in with him (she must be madder than me!), Chris is as chuffed as a very chuffed person indeed to be receiving more tips per week than Corky did in the whole time he was here, and Miles... what can I say? He's still as nutty as a squirrels doings only his hair's a bit cleaner. In fact, he's lumbering around looking like an extra from a Silvikrin advert!

Ah well, on with the issue. I think
I'll retire to my little rubber room for a
while now and leave the rest of the
team to it. It's nice and quiet in there,
and there's no danger of those nasty
purple fribble querts popping up up
and awaaay, in my beautiful brass
aquarium... (normal service will be
resumed as soon as the Sunny Daze
Sanitorium deem it wise!)

West Bishes,

Steve

## ALTERNATIVE EDUCATION

Itemative Software (in conjunction with the BBC) have released an educational package based on the TV show *Playdays*, aimed at the 3-to-8 age group. The game includes several programs designed to lax the very vista of your child's intellect.

You're led through the game by one of the Playdays characters, who gives instructions as you go. There are thirteen sections in all, from the headsdown slog of the spelling and counting tests to the fun. Fun, FUN of Treasure Hunt and Snap. Also included in the packaging are some notes for parents, a set of words-and-pictures

matchcards and a preview copy of Aunty Beeb's Playdays magazine.

Graphics are basic and blocky, but nevertheless colouiful and friendly. A strange quirk though

in the spelling games, rather than typing in the words via the keyboard the letters must be highlighted on screen using the joystick. How novel!

## IF YOU CAN' MODEM!

magine a role-playing game that really let you immerse yourself in it's world... one where you can do virtually anything you like and not just battle your way through pre-stocke

dungeons or solve readymade mysteries... one in which several other people played simultaneously, so you're not just playing against the computer well imagine no more, 'cos Avalon is here!

Set in the dark ages. Avalon has no scenario as such. You play a citizen of

WHICH GAMES DID THE COMMODORE FORCE TEAM USE AS EXCUSES FOR MISSING THEIR DEADLINES THIS MONTH?

#### STEVE SHIELDS

At last! One of my all-time favourite C64 games has just been bettered. Having played US Gold's Leaderboard for the best part of a decade, I was nearly doing back-flips over Grandslam's Nick Faldo. Slick, quick and accurate — you won't get peed off after you've leed off, and that's FOURI sure...

#### IAN OSBORNE

There's no doubt about it — the cream of this month's crop has to be Nick Faldo's Golf. This corker could hold it's own in any company, though as it happens it didn't have much competition — everything else has either been a massive disappointment

or not as good as it should've been!

ow we've seen everything! Joysticks that look like tortoises, hand grenades, bugs, handlebars; you name it, we've seen it. Now Cheetah have surpassed themselves in creating a stick that looks like a boomerang, but would it come back if you threw it? And would you want it to anyway?

Bollistick is a curious name for the device, as it's actually driven by a console-style loypad. Two fire

buttons are included, with a rather nifty auto-fire function thrown in for good measure. The problem with such astrongly ergonomic 'stick' as the Bollistick is it's difficult to make it the right size to fit everyone's hands. Most of the team found it very comfortable.

though a couple felt there was too little in their palms (depends what you're used to, I suppose! - Ed). As they could only make one size, we suppose they got if

about right.

Naturally, the proof of the pudding is in the pounding how does the Bollistick measure up against your old stick-and-button machine? We didn't enjoy using it for shoot-'em-ups as it just wasn't instinctive enough for our tastes, but it's ideal for Dizzy-type arcade adventures - you forget you're holding it! The bottom line? Well, none of us felt the need to trade in our joysticks, but the choice is yours. The Ballistick won't be to everyone's liking, but it's good at what it does check before you cheque.

### PASKET CASE

illiams, those ball breakers, uh hum, sorry, ground breakers in the pinball industry have a novel new offering for you to pump ya pennies into. Hotshot Basketball is based on the home game HOT SHOT. This odd looking machine resembles a pinball machine with a basketball attachment stuck in the middle of the play area. Instead of the flipper belting a ballbearing around the table, it flicks a basketball up in the air, the idea being to score a basket!

A specially-written soundtrack pounds along as you play, and there are five different games on offer, namely 3 Point Line, Hot Shot, Repeat A Shot, Around The World and Pushback.

'All the excitement of pro-basketball action', boast Williams. Hmml We're not so sure it's the most accurate representation of the sport you're ever likely to see, but we're sure pinball wizards and flipper fanalics will find it a blast and a change from endless bonus traps, etc.

## OFFI AGIONS

## REEL AND ON

Daddie bushing, problem solving, road rucing, but 'n' bulling — you name it, we give it to you! So let's get down to some this let's Asilon...

ot only do we bring you the best C64 magazine in the entire multiverse, we also slap on a couple of devilishly good tapes to add flames to the sweltering saucepant All novels start with an introduction, and as COMMODORE FORCE is a best seller here's our own particular pretace.

Occasionally a hasty reader loads up the covertapes and becomes angered when he can't get a game or program to work. After throwing the tape in an old Jiffy bag (complete with aggressive letter condemning COMMODORE FORCE) he mails it pronto — then the feint recollection of tape instructions slowly emerges! After tentatively llicking through the mag, he happens upon REEL ACTION. The dumb git made a fool of himself, and after a lew minutes reading the problem was sorted. Heed the words of Confucious Heyward and read the instructions BEFORE eagerly writing unhappy remarks.

SABOTEUR 2

Prism Leisure

not often you see a game where the leading character's a woman, so Saboteur 2 comes as a real breath of fresh air! You play a beautiful female ninja (getting pre-occupied with her looks are we? So much for anti-sexism — Dep Ed) who's sleek, elegant and punches your lights out without thinking. Her brother was fatally wounded during a daring mission (the first Saboteur outing) and she teels it her duty to right all that's wrong, avenge her brother's death, walk little old ladies across the road and make sure the trains run on time. Or something.

Your primary objective is to defeat an evil dictator's world-domination plan by redirecting the course of a nuclear missile. This involves finding a punched computer tape which is used to after the missiles flight path. The mission begins with a hang glider ride into a high security complex — locate and retrieve the computer tape and escape via motorbike through the only available exit tunnel. You need every sinew in your body and every weapon at hand. Why? Because the entire area (over 700 screens!) is patrolled by androids bats and deadly black pumas!

o surprises here, tolks — It's rip-roaring shoot-'em-up action all the way, and we love it to bits!

You command that cute little gun emplacement at the foot of the screen. Hoards of hungry helicopters hover overhead — you must blast them out of the sky, peppering the parachutists tool Before blasting you can taylor the game parameters to your own requirements — choose rapid fire or single shots, normal or guided missiles, a mobile or stationary base, and if you re really suicidal you can limit yourself to vertical fire!

Slap your joystick in Port One and blast for your life — you've only one to play with, so look after it!

## FORCE's very own game tamer

For those datt enough to miss last month's issue (shime on yout). Easy Lives is a simple way toget through your fave games—just load up the program, select the game you want to beat from the main

menu, and you get a whole host of checky cheats to be selected at will. Just move the pointer to the attributes you want to bust, click on it (or them' if you're desperate), and inty lives/time/ammo or whatever are yours!

Whack your joystick in Port 2 to operate. This month's ace games include the brilliant Myth, the equally excellent Hudson Hawk, and the totally awesome Last Ninja, so get rippin' and have fun!

Old golfers never die, their clubs just get a bit rusty... or so they say. MILES 'WELL BELOW PAR' GUTTERY decided to see how his very small putter measured up to the great Nick Faldos whopping nine-iron!

Miles thought he was the king of the swingers... until he found himself hacking awa in this dastardly sand trap. We'd suggest a pitching wedge from that distance, son!

MILES - I see, erm, but you do enjoy a round of acif don't you?

ALF - Sorry mate, and love to stick around but ar'm a busy man. Ar'll see ya later, eh?

MILES - Er, thanks Alf, bye On well, looks like Im gonna have to do this alone

 With a 17 mph cross wind to contend with, and a nasty little dog leg to negotiate, Miles could use

piece of turf rockets towards the heavens.

Nevermind A little line tuning to account for wind speed and direction and SHAZAMM, SPLOSH, another one to add to the collection at the bottom of Lake Splot.

There's plenty of depth here that's for sure. Wind, lie of the ball, and slope of the ground are all very important. Careful choice of club is also crucial if you want to get anywhere near the hole. Graphics are excellent and the ball looks exceptionally convincing as it wings its way into the distance. When you actually get onto the green the view switches to an overhead 2D perspective which, though not as attractive, is very effective as you try to judge your shot against the undulating ground.

#### Two Course Meal

The game is jam-packed with features and options. There are two full 18-hole courses on offer, each of which is loaded in separately Once you've made your choice and loaded up the appropriate course you can choose the number of players — up to four are available, including combinations of computer and human players. You can even go up against the man himself if you think you're up to it (or just fancy a sound beating). After selecting the players, you then decide whether you want 'metchplay' the winner being the one who wins the most holes, or 'strokeplay, where the player who goes round the course in the least number of shots is the victor. Having done all that you're taken to the club selection screen where you must choose the thirteen you wish to take onto the course. Now at last it's time to kick your caddy into action, ayrtex your underpants and go for that proverbial hole-in-pne!

Here you're presented with a nice 3D behind the golfer view of the course, and options are accessed via a pull-down menu. Observing the lie of the ball and the distance to the green is vital to determine the right club for the job. Next you can alter your stance according to the situation and determine the power of your shot using a strength bar. Once you've diddled all your doobries it's time to play that shot, WALLOP, a

## BALLELLE

 I've always believed that golf is right boring, but I was as refreshed as sitting under a mountain spring when this joyful sim eased Itself onto the C64. There are lots of options to choose from before wandering onto the course, and once your hand grasps hold of the club it dawns on you that a finely-tuned sim awaits tee off. A knowledge of golf will help, but amateur swingers need not feel wedged in the bunker. After a few wild slices the selection of approplate clubs soon becomes second nature. The option of up to four-player participation certainly provides some strong treindship-breaking fun. Give the hardcore blasts and platforms a day off, and Join Nick for some putting - to use a sad and corny comment, it maybe golf , but it sure ain't crazy!

This is definitely one for fans of the game, and even if you're like me and couldn't tell a sand wedge from sandwich it's still a very enjoyable way to wile away the hours.

If it's a golf game you want then fling your readies in Nicks direction as soon as possible. A superlative sports simulation that you really can't afford

fantasy world. Faint when you realise you've got a packet on the cover for free! Steve Jackson's BATTLECARDS are here, and they're here to stay says IAN 'SCRATCH AND SNIFF' OSBORNE...

rading cards are a multi-million dollar industry in America. Footballers, baseball players, even famous murderers are sold and swapped all over the Stales, and with rare cards costing several thousand dollars each an equally-lucrative forgeries market is rife.

However card-barmy as our stateside cousins may be (or maybe just plain barmy), unlike American exports such as The Simpsons, skateboards and herpies, trading cards never really caught on in the UK. But now all that could change. Games Workshop co-founder, Fighting Fantasy writer and top vargame designer Steve Jackson has teamed up with Merlin Publishing to produce Battlecards, a swords-and-sorcery card collection with a difference!

Unlike normal trading cards, Battlecards are more than just collectable images. The cards (and the world in which they're set) form a complete role-playing game in itself, with heroes, viliains, monsters, quests, treasure, magic, and everything else you expect to find in a Tolkenesque fantasy game.

Wilted Continent

Battlecards is set in the land of Vangoria, a wild and dangerous continent split asunder by warring factions. After the death of the Sorcerer Emperor Vangor, his three sons fought bitterly over the throne. Each allied himself with one of the three forces dominant in the continent; Justice, Chaos and Evil. It's on this shattered land the blood of the Battlecards is spilt!

In such violent and dangerous territory, fights to

the death are common. These are decided using a unique 'Scratch & Slay' combat system, using the same scratchoff ink found on lottery cards. Combat moves, spell casting, trading and treasure collection are all utilised in this way. When two 'champions' (heroes or monsters) cross swords, battle commences as follows; toss a coin to see who starts (or play one of the many card and yard games outlined elsewhere). The first player to strike then scratches off one of his opponent's head, body, arm or leg spots (see illustration), revealing a blank space (miss), a shield or spell icon (treat as blank in the basic game), or a wound. Play then passes to his opponent, who does likewise.

After the second and subsequent wounds, the attacker scratches one of his opponent's 'life' boxes. If a skull and crossbones is revealed, the fighter is dead, and the stricken warrior's card becomes the property of the winner. As well as being a valid collector's card, each win also carries a bounty — scratch the 'purse' spot to see what you've won!

#### Role Call

However, there's more to Battlecards than just scrapping. Within the set there are also ten Quest cards, consisting of puzzles solved through searching other cards for clues or symbols, eg in 'The Rings Of Harrak-Bur' you must search for five magical rings stolen during the sacking of Vangor's Capital at Constantia. The rings are printed on other cards — but can you find them?

Solving a Quest entitles you to a reward, a sum of gold collected by sending your solution to the publishers. This can be used to buy rare 'Wondrous Treasure' cards such as the Orb Of Shantos or the Amulet Of Eternal Beauty. They do appear in packs, but only very rarely (they're supposed to be valuable treasures after all), but can always be found in Robyn Steele's Trading Post as outlined elsewhere.

There are 149 Battlecards to collect, and they're available from all good newsagents, comic and game shops. At 50p for a set of eight they're far cheaper than most collect-and-swap outings, so what are you waiting for? Unsheathe that sword and get slashing!

# 

OF VANGORIA

#### PLAY THE GAME!

The street urchins of Constantia while away the hours playing a number of Battlecards games, all of which are outlined on two cards in the series — Card Games and Yard Games. These pastimes are as much fun in the modern world as in mythical Vangona, and offer an excellent way of winning Battlecards from your friends (if you're good enough!)

To play Racing Cards, the contestants line up about three feet away from a wall. In turn, each fires (flicks between index and middle fingers) his card at it. The one who lands closest to the wall wins the other cards.

The curiously-named Smotherers Do Have Em is also played by firing cards, but this time you don't need a wall. The contestants flick their cards until one lands on top of another however slightly. Winning all the cards in play. A Vangorian version of Scissors, Stone and Paper uses the loons hidden under the text on the reverse of the cards — sword beats fist list beats shield, and shield beats sword.

For all these and more, check out the Yard and Card Games cards

## WHAT'S THAT FUNNY SPELL?

f spells are to be used, each combatant chooses (secretly) a set number before starting — unequal numbers are permitted. Each time an attack reveals a spell symbol, the detender is then able to cast a spell by

scratching off one of the six spots on a spell card. Unless this reveals a miscast symbol. the spell takes full effect Each spell san only be used once in battle

fter the death of the Sorcerer-Emperor Vangor, the Continent Of Vangoria was thrown into a state of anarchy and strite. As the forces of Evil, Justice and Chaos slugged it out for the crown, the continent split into four separate territories.

Separated from the Southern Kingdoms by the Jharn Peaks, The Darklands are deminated by the undead hordes of the Lord of Darkness to the East and tribes of Hill Coblins to the West South-West of the Darklands is Quaine, home of the hoble Prince Gallant, swom enemy of the evil sorcerer Lord Vendeance.

FURCE FIELD

The Eastern territories are a wilderness of demonic creatures, savage warfords and Barbarian Warnors forever locked in Inibal wars. To the South lies Zittonia, ruled by Zheena hightshade, High Priestess of Garganitica, the god of evil. But the forces of multi-lied by Aragen frueblade have begun to weaken her hold.

known landmarks of Vangoria — perhaps that's why it's as common as muck in the Battlecards packs! The eight Wondrous Treasures of Varigoria are sold here. Just scratch off two spots, and if one's a treasure and the other's a sum of money, you can buy the artifact in question. If not, sorry — sold out!

To 'buy' the treasure you send the necessary dosh (Quest reward credits, stricken lighter's purses, etc.) to the publishers and they'll send you the treasure card in question.

At the heart of the Battlecards combat system are the 'Scratch and Slay' spots representing various body parts.

Combat icons are covered using scratchoff overprint.

On the reverse, the champion's details and combat rules are outlined, and the artist's signature displayed.

## THE ART OF THE MATTER

attlecards are illustrated by some of the finest fantasy artists in th business, such as Les Edwards, Pet Andrew Jones, la McCaig, Terry Oakes, Allan Craddock, Gino. D'Achille and Waldmeister. They're already well known for their work on Fighting Fantas Gamebooks, board and role-

playing games and record covers. Each artist has his own self-painted card, complete with tongue-in-cheek biographical notes on

# LEVEL 4

Batten down the satches and sandbag your doorstep, here comes another crackling edition of the COMMODORE FORCE tips section, and heavens, what a section it is! You wouldn't believe the amount of letters I've received recently, there's so many I can hardly breathe! Not that I'm complaining - a cheery letter (from someone desperately trying to befriend me) always humours, so keep 'em comin'. A certain barbarian (namely Bash) is very angered that I'm receiving adventure cheats. I know people prefer writing to me than that prehistoric potato, but it's best to keep the simpleton happy, so send all texty tips to his pastures instead. This month I proudly present playing tips on WINTER CAMP, SPACE CRUSADE, STEALTH FIGHTER, and ab what's the use, just read on!.

the Winter Camp guide.

It's begreen than an Oscan, treasured more than a Grammy. It's Datee's Action Replay Cartridge It's time to opeen the golden enveloppe and see who's won. and the winner is John Crompton for

Congratulations John, and bbecause you can't be with us tonight we'll post tit your way (not quite in award fashion but chlose enough!).

Thalamus

One day a whopping bonanzaa of an envelope hammered through the letter troox. It was so packed with tips that it took telen of us just to lift it! A tree would cry if it knew hovow much paper John Crompton from Wigan had usused in sending me the wealth of cheats that he d did, and here's one from the bundle for Winter Calamp.

#### LEVEL T

Waggle the joystick and try to keep the pointer on the Yellow Arrow icon to increase speed. If you waggle too fast you'll slow down (isn't that always the way), and watch out for the last two opponents they cheat.

#### LEVEL 2

All the objects here are useful. To complete the level, save four fish and four other skaters. Once achieved you are confronted by the end level guardian. Select Bombs and throw them, run into the boss and knock him onto the bombs.

THE OBJECTS.

FLAGS BRUSH

GLOVES

SNOWMAN UMBRELLA

SPRINGS BOMBS

Extra time Sweep away curling stones

To save the people trapped in the snowball Throw snowballs Shelter from snowball

throwing women Jump gaps in the ice. Throw at end-of-level boss

#### LEVEL 3

Throw snowballs at the bears poping out of the trees. The dark bears are the main concern, they retaliate! Catch the falling flags for extra time.

Five drowning people and five canoers need savin from imminent death. To kill the bear at the end of the level, first throw honey at it, then select the football and bounce it off the basketball net and in the bee hive. Hit the nest enough times and the be fly out and attack the bear. All objects are useful.

THE OBJECTS. FLAGS HONEY

MAGNET

Attract cans which sink the canoe.

Extra time.

FOOTBALL FISHING ROD

Use to hit bees nest Upon reaching the waterla select the rod and hold line keep pressing the joystick

left to attract a fish.

Throw at end-level boss.

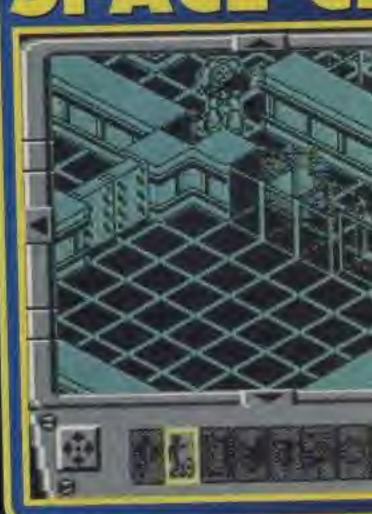

TELEPHONES

PICNIC BASKET

Use to phone helicopters that drop extra canoes or blow up obstacles, eg dar Use this to throw fish at ducks and other creatures the river. It also brings ca towards you if you lob a fi at them

#### LEVEL 5

Waggle the joystick to stop yourself falling off the crevasse. Clyde Radoliffe starts tapping tunes or icicles above him. Just remember the order he ta them out and repeat the sequence.

## CREATURES 2

#### Thalamus

One of the best 64 games of all time and Toronto resident Steve Guidi has discovered a secret stage.

On level 2 (torture 2), push the boulder into the snowball machine and wait 'til it falls on the demon's head. Quickly jump in the machine and walk to the right. You're confronted by a series of happy faces, which can be collected for points — just avoid the ones that shake their heads back and forth or you exit the stage.

#### LEVEL 6

Another level full of rescues, this time save six skiers and another six who are trapped in snowballs. To get the climbing equipment, pull down on the joystick when you get to the hut with the smoking chimney. Only hold the climbing equipment before you get to the building. Max will climb up and get the trumpet. Select this when you meet the walrus guardian. Hold fire and waggle the joystick to deafen it. Jump over the obstacles which roll your way. Eventually the ice will break and the walrus will plummet through. THE OBJECTS.

FLAGS CHAINSAW

WATER PISTOL

CLIMBING EQUIPMENT TRUMPET Extra time.
Cut trees that are in your way.
Save people in snowballs.
Climb up building.
Breaks the ice under end of level quardian.

#### LEVEL 7

Maximus rolls down the mountain trapped inside a snowball. Contact with monsiers slows you down. The smaller the snowball, the faster you roll. Collect snowmen to make the ball bigger and flags for more time. Eventually Max collides with some bricks at the bottom of the mountain and he's free!

#### LEVEL 8

The final climb is in Donkey Kong style. Look under rocks for extra fine and collect the worm creatures which sneak on from the left. These are fed to the chicks, and that's the game wrapped up!

#### SERGEANT SEYMOUR — ROBOTCOP

#### CodeMasters

The Phantom Faxer's probably not a phantom at all, but a simpleton who likes dual identities. Never-the-less, the Sergeant Seymour — Robotcop cheat he sent should help those in need.

Load the game and when the titles appear type STEGTHESLUG (no spaces). The border will change colour and low and behold, infinite lives are yours.

## SADE

#### Gremlin

Simon 'thirty-something'
Swaby from Lincolnshire's been playing this alien encounter for hours on end, and during one night of hectic rolling (die rolling of course) he stumbled across a cheat which, he believes, is quite stunning. I happen to agree Simon, and call me insane if you like but I'm going to print it!

The Assault Cannon's by far the best heavy weapon. Follow these rules and the soldier carrying it becomes a one-man army!

(1) Get a re-lire by whatever means necessary (shooting at the most powerful target visible is the best way, you never roll enough!)

Once on re-fire, place the curser on your own assault cannon (make sure you've got the right man!) and press fire, this resets the roll of the dice.

3) Choose an enemy and press

fire, both dice will re-roll (the cheat is now activated but place the cursor on your own man's square between firing to be sure)

If you roll double zero or use up all your shots, you should now find the Fire icon is still active.

Every time you click on your own assault cannon and then onto the enemy, both dice will re-roll and the Fire icon stays lit even when you switch it off (active and reselectable).

#### N.B THIS WORKS FOR ONE TURN ONLY, IT MUST BE DONE ALL OVER AGAIN, NEXT TURN, IF NEEDED.

Now all you need is patience; everything you shoot at dies horribly. It's best to activate the cheat before moving. Remember that not getting a re-lire turns the icon dark. Once activated, choose a position from which he has the most devastating field of fire. Simon says (no pun intended) that he cleared a room of all nasties in one turn but it does take ages, so persevere

#### Alternative

Richard Beckett's become something of a regular in the tips pages, and he's back with some useful codes, this time for Reckless Rulus

### DOUBLE DRAGON 3

#### Virgin

Many moons ago in issue 1. Michael Johnson sent a level guide to this face puncher, but couldn't quite complete it. Well Richard Green from Essex has, and he's gonna tell us how it's done, starting where we left off on level 7

#### LEVEL 7

Leave one man at the top of the screen to keep the dragon occupied while the other spells out 'ROSSETTA' with the stones (only one player needs to spell it). Now's the time to batter Hiruko. To do this one player fends off the rockmen while the other lays into the annoying midget himself with flying kicks.

#### LEVEL 8

Behold Cleopatra, she starts off as a mummy, picking you up and throwing you around. There's only one solution — kick her in! She returns and sheds her bandages (wash your mouth out, this instant!). Death will pay a visit if she merely points at you, so be careful. Get in close and use flying kicks; the sooner you kill her the better, because she's a dab hand at throwing lightning bolts.

## SLY SPY

#### ESCAPE FROM THE ANET OF THE BOT MONSTERS

Domark

You just can't visit a planet without hostile alien beasts advancing toward you all the time can you? The enemies in Escape From The Planet Of The Robot Monsters are brutal, so here's some advice for the first three canal sections.

First left, next right, straight up. Choose middle route because it's easiest. Second Wave: Second right, straight up, Choose lar-right route.

Third Wove: Go left straight away, then up, first right, first left, straight up and choose the end one again

Guardians Hold down fire until you're killed. When you're reincarnated you'll be invincible, but only if fire is held down!

## PROJECT

Microprose

All right calm down! I know this game's a bit crusty, but it's one of the all-time classic C64 flight sims. Craig 'The Master' Ellis lancies his chances as a tips expert - well Master you may have a dubious middle name but your fielp is of the finest quality

#### DOGFIGHTING TIPS

The best mandeuvre is the Immelmann Turn/Split-This is very good if enemies are hassling your behind, just remember to increase the thirottle to maximum - it wacks up the EMV and gives you the needed litt.

Try to get behind the opposition when fighting. head-on attacks aren't advisable because you're as vulnerable as they are.

Keep the cannon armed at all times and don't fret about being to accurate whilst firing, you'll be amazed at the flukey shots that can be made

Avoid pulling off too many banked turns, the F 19 could well stall

#### GROUND/SEA ATTACK

Never attack a ground or sea installation of full throttle, you'll hit the deck - literally!

Take out any SAMs that are after you. ALWAYS destroy the SAM's radar bunker first as it makes the launchers easier to pick off. The same applies to airfields. You only need to but the control towers out of action.

Heavy turbulence is encountered if the Stealth flies at low altitudes

When dive-bombing, ensure that the airprakes are used (the flaps prove handy as well otherwise you won't be able to recover in time.

#### **GENERAL TIPS**

It's best to eject over sea or friendly territory at 2,000-4,000 ff.

If tuel's peniously low, don't eject but climb to a very high altitude (30,000-40,000 ft should be sufficient) and glide home. When gliding get the

VVI gauge to

show the descent It takes loss of

practice to land like this, but a bravery medal's yours if successful

Higher scores are gained when you select higher skill levels.

Use the ECM only when necessary (make sure It's low, 2-3 lights) and keep a keen eye on the

Train regularly, it's surprising how your skill's increased

Never eject whilst inverted, you won't survive.

#### WEAPONS

Cannon: Short range but easy to aim - just line up and fire.

Air-Air Missles: Both the Amramm and Sidewinder are good fire-and-forget missiles. The Amramm's probably the best of the two as it has a longer range.

Mavericks: These are slow but are definitely the best air-to-ground missiles.

Air-San Missiles: They're all pretty good. You get more penguins than harpoons but the harboons have a much better range.

Bombs: Undoubtedly the best bomb is laser guided, the Rockeye 2. When using the smart bombs (laser guided) always remember to toss bomb them, or the target will be missed

Tusker's been needing the Tipsters attention for quite some time now because Daniel Pagett from Powys has been pleading for advice, along with Midlander Becky Dixon. She too wants help with the elephant related outing. Nothing annoys me more than people phoning me and asking for game tips, but one polite gentleman sounded deeply upset as he explained his Tusker problem, so here's the solution for you all.

Collect the necessary objects from the desert gun, ammunition (found in large box), acid bottle, knife and the water bottle.

To collect water have both the knife and water bottle displayed, then stand by a cactus

and stab it. Go to the cave entrance and enter the first lead off cave. Punch and kick the chest to get a useful book. In the water, kill the alligator with the beyond the the water and

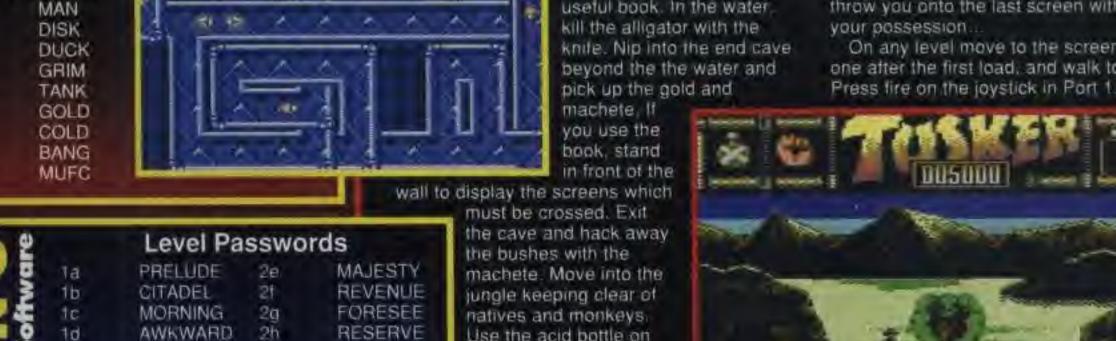

must be crossed. Exit jungle keeping clear of natives and monkeys Use the acid bottle on the chains to free the slug. The slug will not be pleased by your activity. and if you stand in the way death will soon follow: don't bother tiring though, it won't die.

The monster can be avoided by walking in broken steps — any in sequence will make it appear keep clear of the pot by waiting for it to fall before passing. Get the key from outside the village and then enter that section. Walk through the hut to the left of the bouncing skull screen. Exit via the top corner and traverse through the inside of the village to the screen with the locked hut. A medicine bottle awaits collection. Go into the large huts through the door with the face above it. Move right collecting sling shot and matches in the alter room. Use the matches and punch the idol to burn it. Grab the orb using the punch movement. Enter the screen to the right of this and give the medicine bottle to the angry witch doctor (again use the punch movement). The chief will now stand up and you will see a key in the objects part of the status area. Exit the village and give the key to a native in the screen containing the sliding gate. Pass through the open gates, and it's on to the final part.

Collect the small gold nuggets found on the start screens (seven in total). Use the sling shot on the dinosaur before nabbing the nugget. Enter the cave in the side of the mountain and move right to reach the temple. Punch the monkey with the nuggets to make it move back. Collect water in the temple by a punch movement on the statue. Kick the door on the insect screen to release a spicier. After the insects have disappeared, collect the icon on the floor. Pick up the object in the plant room (the plant can't be killed) and collect the hammer, chisel and plank from the next screen. Hit the alter in the room with the mummy using the hammer and chisel and the lid opens revealing a brown icon. Collect this with a punch and walk into the room with the empty table. Place the icons on the table in the correct order, they can be picked up again if incorrectly placed. Eventually the combination will be right and a door will open allowing access to the final screens. Put the plank across the chasm by crouching down. Walk over the plank and place the gold nuggets on the scales to stop it moving, the final door will open and the game's completed

And if that STILL isn't enough, this cheat will throw you onto the last screen with all objects in

On any level move to the screen right of the one after the first load, and walk to the bottom

Q. How do I cross the gorge?

A. Chop the tree with the axe AFTER you have cut the bamboo. You will get a nice large log to put over the chasm.

Q. How do I kill the snake?

A. Try playing it a tune. It won't kill it but it might just frighten it off.

Q. How can I open the oyster shell?

A. With the trident

#### BLACK KNIGHT

Q. How do I get past the dwarf?

A. If you examine the barrel/cask in the Tavern you will soon discover there's a hidden room behind it. Under the debris in that room you will find a grid. If you smash it with the hammer you'll find what he wants.

Q. What's clinking in the cellar under the trapdoor and what is the cleft in the tree for?

A. Two problems solved in one. If you look in the cleft you'll find a Lodestone - a medieval name for a magnet!

O. How do I milk the cow?

A. Get the stool, bucket and bunch of daisies from the village green. Give the daisies to the cow and she'll let you milk her

### THE CASE OF THE MIXED-UP SHYMER

Q. How do you get the cat back out of the well?

A. Tommy Stout will help you. He's in the bell tower. Ring the cow bell and he'll race to the well. If you talk to him at the well and give him the rope he will rescue your cat.

Q. How do you help the sheep?

A. Never heard of Baa Baa Black Sheep? What do you mean 'They are all white?' The tinof paint in the haystack should do the trick!

## BEATLE QUEST

Number 9 Software £4.50 cassette/disk

his adventure (written on The Duill) has
nothing in common with the creepy-crawly
type of BEETLE, but an awful for to do with
legendary pop group THE BEATLES. For those
too young to remember, The Beatles were

the most popular band of the 1960's, causing mass hysteria

wherever they went and later necoming the first band to be awarded the OBE. Sounds like a good theme for a game.

Beatle Quests a large adventure, with around 150 locations. After the opening scene (set in the Mists of Time), you wake in a seedy badsil in the heart at Beatle Town. You soon find yourself taking a bus to Penny Lane (hope you have as much fun with the sheep as I did)(come again? — Edi, visiting the old school, taking a trip to the circus, riding on the helter skeller and visiting many more weird and wonderful locations (recognise em, pop pickers?)

A must for Beatles lans, perhaps it's a little tricky for younger adventurers as all the puzzles, plots and counter-plots relate to Beatles song titles and lyrics. Most of the location descriptions are taken from Beatles lyrics, and a knowledge of their extensive range of hits is almost essential to completing the game. Featured songs include When I'm 64, Yer Blues, The Continuing Story Of Bungalow Bill, With A Little Help From My Friends, Love You Too, Strawberry Fields Forever, Lucy In The Sky With Diamonds, SGT Peppers Lonely Hearts Club Band, I Am The Walrus, Penny Lane, Glass Onion and The Fool On The Hill. Getting

into the game's extremely difficult at first, as after the first few moves two of my most dreaded hates reared their ugly heads — being told I'm hungry and the evil Sudden (and illogical) Death Syndrome, the bane of bad adventures. You only have a few moves to solve a

particularly nasty
problem before
'Maxwell's Silver
Hammer comes down
on your head', (more
Beatles lyrics). This
puzzle's so bad I'm going
to break my own rules

and and print a clue within a review, albiet backwards. In the MODRHTAB, you must MOOR HCRAES to find an item which (and don't ask my why) keeps death away. There's another sudden death in the bedail, where you find a beautiful girl sleeping. I couldn't find much to do with her, spart from something rather naughty, for which I got folled: Serves me right I suppose, but when you're stuck you should try everything.

The need to eat comes into play after very lew moves. You're told you have the hippy, hippy shakes' — doing something unusual to the telephone should help you out there. If you do everything right within the allotted number of moves, you'll soon 'Picture yourself in a boat on a river, with tangerine trees and marmalade skies' It's from this point that the game opens out.

First released way back in 1985, it's now been re-released by author Garry Marsh of Number 9 software. Garry's obviously a real Beatlemaniac and there's no denying a sound knowledge of Beatles lyrics helps the player no end, though I only know a few myself and I managed to complete it eventually. I've mixed views on the adventure as a whole. On one hand I enjoyed parts of it very much indeed, but on the other, two sudden death routines night at the start and the limited number of moves allowed to sort out the problem almost made me throw it through the window! It's a tough adventure, and because of the Beatle theme it could prove a lot of harder for non-geriatric adventurers. However, if you young 'uns want to see how we oldies cut our adventuring teeth way back in 1985; then try it!

However, in the shadow of those Merseyside giants another side has achieved a little success of their own. Known simply as Liverpool, a couple of European cups and a league championship or sixteen are just

a few of the things littering their modest trophy cabinet. Now Grandslam are offering you the chance to help them to more glory - let's face it, you couldn't do much worse than Graeme Souness (all death threats to the Dep Ed pleasel).

The game boasts a fully digitised intro, and all relevant competitions (domestic and European) are to be included. There are even referees of

With love comes responsibility, and sure enough the light of his life was soon demanding a new washing machine, vacuum cleaner and dinosaur-skin rug (women, eh?). Not wanting to lose his new found babe, there was only one thing for it - he'd have to earn some money!

In prehistoric times career opportunities were very limited. Undaunted, our entrepreneurial ancestor came up with an ingenious scheme to rustle up cash. Noticing how his lazy neighbours hated walking, it occurred to him that if he provided a transport service (for a small fee of course) had clean up. All he needed was the right vehicle for the job!

When you cast your eyes over Ught, first impressions are very commendable. But even though the graphics may be detailed, (the shimering water effect is fantastic). play soon becomes very frustrating. The most sensitive joystick movement is required; thrust the stick around and the propelled elevator careers through the platforms into the water. This would prove challenging but later levels are beyond comprehension - time a dive wrong and you're stuck underneath a ledge waiting for the caveman's energy to run out. Ugh! reception followed. It's an original idea, bur it's hindered by some seriously frustrating gameplay — one small slip can mean having to start the screen all over again! Thankfully a handy password system's included, avoiding repetition of screens. Nevertheless the office Commodore did well to withstand a verbal battering that was (to say the least) very heated!

If you're looking for a game that takes time to complete, then Ughl certainly provides

a stiff challenge. Those with a low frustration threshold should think seriously before they buy.

Despite a few niggles. Ughl is a highly original game which should provide a great challenge as long

as you are willing to persevere...

 UGH!

Ugh! could've been a HURRICANE HIT, but

It's seriously marred by appalling presentation and gameplay flaws. For example, it you hit a platform too hard you die — fair enough, but why do you lly straight through it and disappear off-screen, which then flicks to the intropage? a small explosion wouldn't have gone amiss. Also, when you run out of energy the screen also flips without warning, or any indication of what's happened. This may not sound too annoying, but believe me it is — it gives it a faity, unfinished look.

Worst of all is; the horrendous, insane difficulty level. Your energy runs out so quickly it's umtrue! To make matters worse when you 'bomb' a tree to get fruit it often bounces off the screen, and even if it doesn't your have to be damned quick to get to it before it vanishes!

Ugh! is undowbledly good, but by no means great. Ill they'd invested a

## CodeMasters, £3.99 Cassette

The potato's back! With the debate as to what the Codie's latest superstar actually is still raging after several months, MILES 'SPUDGUN' GUTTERY takes a look at his latest epic...

Hmm... breaking the game into bite-size

pieces accessed through level codes is a neat idea, but apart from that it's just more of the same.

Dizzy Seymour arcade adventures have always been pretty similar, but up 'till now they've always taken the genre one (small) step forward. Prince Of The Yolk. Folk was as large as it could possibly be, so the Codies wisely concentrated on their new level system and better graphics with Crystal Kingdom. Wild West Seymour's a step backwards — a shameless Speccy port, it runs almost as slowly as the early Dizzy outings, and the problems... solve one, you've solved "em all!

If Codies arcade adventures are to excite again, more attention must be paid to the design. Let's have a more involved manipulation system, one that allows you to use objects in your inventory on each oither. Let's have more complex problems, not just bog-standard ones. Above all, let's have a bit more depth. Part of Dizzy/Seymour's

charm was it's simplicity, but having been done to death it's begining to grate. Maybe it's time for a change of outlook.

short lived career moonlighting as a policeman in Sergeant Seymour — Robot Cop., Seymour's back where he belongs — in the movie biz! His latest project's a sprawling western, but (as usual) production has run into a plethora of technical hitches before it's even begun. Most of the problems are down to the devious tricks of the evil El Bandeeto who (for reasons best known to himself) is determined that the film never makes it to general release!

The fiendish villain's thrown the studio into uproar! No one knows where the script is, and worse still important equipment's been hidden or mislaid. To make matters worse the film crew have gone off to search for the missing items, leaving poor old Seymour to sort it out on his lonesome! One or two of the studio staff are still hanging around, such as Claire the receptionist and Pete the camera-man — they seem to have problems of their own, but help them out and they give you a useful object or a clue in return. Having rectified the turmoil at HQ it's off to the States to begin shooting (the movie; silly).

Act two sees the hapless vegetable rushing to

"I'll 'ave you Butler!" — Codie's own spud-u-like could be just the ticket for budding arcade adventurers. Ding ding! catch his train.
Unfortunately he has no ticket, he's lost his wallet and the train is almost due to leave.

Train Of Thought

On to act three. The evil El Bandeeto's sabotaged the train (What a rascal he is, eh?), leaving Seymour stranded in the desert! Cue more puzzle solving and careful exploration of scenery.

After getting the train back up and running, our hero finally makes it to the final section — the film shoot!

When Seymour first appeared it seemed he was to be Dizzy's successor as Codie's standard bearer. After a couple of simplistic but playable arcade outings and an interior Dizzy-esque arcade adventure, his credentials aren't

Naughty Seymour — how dare you suggest that the young lady would drop one in a sacred temple!?

particularly overwhelming. Whereas Dizzy was a little bland and colourless, the games he starred in were full of character! Seymour, on the other hand, is just plain annoying! His world is graphically dull, and to add insult to injury his latest starring roll is a blatant Spectrum port that makes no attempt to utilise the superior colour capabilities of the C64. Unlike Codie's earlier arcade outings. Wild West Seymour's

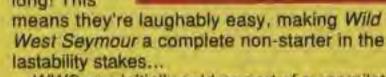

made up of four stand alone sections accessible by a rather spiffy password system: Having completed a section you don't have to go through the rigmarole of solving the same old puzzles every time. In this respect the game borrows from the recent Crystal Kingdom Dizzy. The essential difference is where each of

Typical, isn't it? Put a man in uniform and he starts getting ideas above his station! (Below)

 Now that Seymour's off the waggon, does it mean he'll be getting Dizzy? (Sorry!)

CKD's levels is a respectable game in it's own right, the sections in WWS are tiny, only ten to fifteen screens long! This

WWS was initially sold as part of a compilation and as such was okay to wile away an hour. As a release in it's own right it really is a disappoint-

ment. I usually find this style of game highly addictive and very rewarding to complete, but the only feeling I had on completing WWS was immense relief that I wouldn't have to play it again! Strictly movie

stuff. INJUN BURIAL

You'd think by now these

Codie puzzle/arcade games would look different to the Spectrum versions, but low-and-behold they don't. Wild West Seymour's no exception — the graphics are stale and watery, especially the main sprite, and 'attention to detail' must've been erased from the menu. The puzzles are quite tame, each needing little thought, and after a few plays it's all sorted. The majority of time's spent judging Seymour's leaps! If only he could change direction in mid-air, I wouldn't have swore half as much! There's a remarkable resemblance to a certain egg-shaped character, but the yolk's adventures are far better in content. Seymour's home ground should be on a

compilation, but in the vast universe that is the C64 market, as a stand-alone game it'll struggle to gain friends.

wrestling's acquired something it lacked in days gone by - heaps of hype, inspiring a legion of Tshirts, videos, slippers, bog rolls, you name it! The stars of the 'sport' even recorded their own single (number 4 in the charts at the time of writing). The big question I can't help asking is if these huge muscle-laden prannies are so damned tough, how come they go down without even hitting each other? Watching too many Frank Bruno fights I suppose...

After Ocean's excellent officiallylicensed release, the Codies have jumped on the bandwagon with their own computerised representation of the sport. For maximum realism the game comes complete with a jar of false sweat to rub all over your body, a vast amount of jewellery to ponce around in during pre-bout interviews and a generous helping of Patel's 15megaton nuclear curry to give your voice that rasping macho tone. Actually that's a lie, but the game does attempt to incorporate most other essential elements of this great American institution. There's the incredibly condescending and excitable commentator (who bears an uncanny resemblance to Ronnie Corbett), a range of mouthy and unpleasant opponents and the obligatory slanging match prior to the fisticutts.

## You Grunt, I'll Groan...

On to the fight. The player has a number of moves available to him. A punch (very weedy), a kick (slightly better) and if you run very fast against the ropes you can bounce off and give the other guy a right thraping in the head (well smart). You can even climb onto one of the posts at the corners of the ring and jump on him! Occasionally you get into a grappie, and then it's waggling time. Shake the joystick left and right like mad in order to lift your opponent above your head, then press lire to chuck him to the ground. When he's down, jump on him and try to stop him getting back up. When he pins you, waggle again to throw him off. Each wrestler has an energy bar, depleted when hits are sustained - the lower it gets, the less chance you have of breaking a pin.

Fight games are almost invariably better when

It's true that the number of moves is limited, but I personally didn't find this offering quite as dire as the others did. OK, so you feel like your arm's going to fall off after the

Nowadays it may be a certain Iraqi dictator's hide-out, but long ago Baghdad was a mystical place. While Sinbad tackled one-eyed ogres, wealthy kings regularly held parties in honour of themselves — CHRIS 'SHEIK HERDER' HAYWARD visits John Menzies to find the ruler...

he air of Baghdad is tinged with excitement; at roon, you (the ruler of the city) must hold high the legendary sceptre, so claiming your right to rule over the land and its people. Of course, ceremonies never quite go to plan, especially when an evil wizard plants monsters and beasties all around your castle in an attempt to stop your public appearance and tries to seize the sceptre for himself.

The crux of the game is finding the right place to put each object, and this is where the game falls down. Sorme of the puzzles are far loo obscure. clean up the city using your wit and intelligence (your what? — Miles), which basically means collecting objects and solving problems in the usual arcade adventury manner. By combining items different results occur, such as waking a helpful genie or revealing a hidden room. The monsters you encounter also need taking care of but the slaying can't commence until the correct items are found. Medusa can only be destroyed using (deleted — no clues here — Ed), but you need to complete a bonanza of puzzles before it can be grabbed, and so on. Tidy up the city, degiblet key monsters and the sacred sceptre ceremony can go ahead as planned.

## **Dated Dealings**

Sceptre Of Baghdad was originally released on the Spectrum in 1987, so it's inevitably dated a bit since then. Still, if it needed tweaking it couldn't have been tweaked better — the sound's nothing short of outstanding, with several different melodies moodily setting the atmosphere. The graphics are bright and colourlul, but I got an uncanny feeling of deja vu. The energy status resembles that in Sabre Wulf, the ancient Speccy game, and on many a screen I cringed at the nightmansh Spectrumy sprites. The central character's questionable, looking like a Rastatarian with no style, and the animation's also puzzling — the Caliph swings his arms and slides across the floor like a curling stone on concrete!

No matter how bad other factors fare, playability must shine through, and yes, you know what's coming next — the playability is quite sad. Now don't get me wrong, these

exploration/collect-'em-up games usually entertain Searching untouched territory and solving complex problems proves fun, but only when the problems make sense. A lot of items aren't actual used as such, just swapped for other objects. The is line when using the insect net on the spider, but who in a same state of mind would think of swapping a coconut for a mirror or exchanging a carpet for pair of slippers? (We'll let these pass — Ed)

It's this impossible predicament that opens a gaping wound in the belly of a possible winner. Salt's rubbed into the festering sore by the whimsical amount of lives you are given. Dying when 80% of the puzzles are solved inspires screams of trustration, and with only one restart point (incidentally, I couldn't find it anywhere) exploration soon becomes a chore. Anyway I may as well try and finish it... of dear I should have swapped the armour for an egg whisk. Tot tut, silly

No. it's not possible! Surely not even the dastardly Davros is low enough to waste a great licence by putting out a fourthrate scrolling shooty... (after making It past the first section) - phaw! The game, in fact, is a very large and rather difficult map-'n'-search-'em-up with plenty of Daleks and other baddies to keep you on your toes. Commendably the programmers haven't simply chucked out a slap-dash program that plays like it was put together in twenty minutes, knowing it'll sell solely on the strength of the name. Dalek Attack's a well thought out and challenging arcade adventure, and a real winner in the lastability stakes with heaps to see and explore! This one should find ts way into any self-respecting C64 owners game collection. Pity about the silly first level though...

multi-million dollar movies and dubious corn circles of which the farmers deny all knowledge (though they're all too eager to collect money from Japanese tourists) Real alien forms are a far cry from the cutsey ET expectations of the human race because what really lurks in the depths of the cosmos is a cruel, callous race of metallic megalomaniacs, the dustbincloned Daleks. The earthlings are quite unaware of the evil breed's intentions (conquering the universe, exterminating all life, etc) but way up in the stars a meeting of the Timelords is under way. One man volunteers to put an end to the Dalek's reign of terror; Doctor Who!

Of Who's not your normal, run-of-themill GP, but a time-travelling do-gooder who always attracts female assistants and transforms into a completely different person every time the lead actor demands a pay rise! You control both the Doctor and his assistant (one each in two player mode) and must wipe out the meddlesome mutants from various Earth cities as the Daleks begin their invasion. Free each city and it's onto the planet Skaro to defeat Davros, the twisted, malevolent leader of the Dalek force. Occupied London is Who's first stop - using a pair of hover pads. the duo must enter the Dalek dominated city via the sewers, speeding through the tunnels, rescuing imprisoned humans and blasting vicious Robomen. hostile bunch. This first stage is a horizontally scrolling shoot-'em-up which is odd really, 'cos the other levels are of a platform nature where you must roam around different cities, freeing the captive public and collecting power-ups to destroy the Daleks. Play switches between the Doctor and his assistant each time one ducks into a building or loses a life, or alternatively by a quick smack on the space bar.

I know of Who can be a pain in the neck at times, but surely there's no need for this? Perhaps he's realised the Dalek invasion will only last until the first stair-

atman and Robin, Crockett and Tubbs, Hudson and Halls. — temble (wosomes are always popular (apart from Hudson and Halls, who are just terrible), and in this two player outing the lead players are a dwarf and a bird. The bizarre couple like to rendezvous at weekends and meander around a castle gathering treasure and shooting horrible creatures that might hinder their fun. They can walk round by themselves (which is where the split screen comes into action) or team up, a map of the castle taking over the lower screen.

Now the plot's out of the way (incidentally, that was the extended version) the critical onslaught can begin. Two player escapades usually provide a laugh no matter how disgusting the gameplay. but all Dynamic Duo deserves is pitiful sorrow.

The Dwart resembles a stumpy Santa Claus, dawdling around like a sedated limpet. The flying duck zooms straight into oncoming nasties (if you can call green hoops nasty) with it's tirepower proving as much use as a rhododendron. The most atrocious aspect is revealed when a player dies. At first I thought the program had crashed; the screen intertwined with black and white lines flickering across, trying to represent some kind of thermal meltdown. Believe me, thermal pants hold more appeal. Who on earth had the idea that a dwarf and a duck would make a formidable team? Dynamic Duo

> they've all got huge violent boyfriends who'd get bored if they didn't, that's why! MILES 'ME,

SEXIST?" GUTTERY sheaths his mighty weapon and searches for distressed maidens...

avage is a typically average hunky fantasywarrior type. Muscles in all the right places, but mostly between his ears! His woman's been captured by a particularly nasty man and is now held prisoner in his castle. Being the sentimental so and so old Say inevitably is, he sets out to rescue her. It must be love! To make things doubly difficult Sav himself has been caught and locked up, so his first task is to escape from the castle dungeons. Easier said than done! The dank corridors are home to hundreds of nasty little creatures. Bats, little dragons, flying insects, all with one aim in their minuscule minds - to make our hero's pants. resemble a sewage recycling plant! Occasionally more formidable enemies appear who, when defeated, drop better weapons to aid Sav in his escape. The nearer he gets to freedom the more traught the situation becomes. And as well as avoiding or killing the nasties there are bottomless pits and pools of fire which must be negotiated.

## HOPEY Up Harrior

Once out of the castle Savage does what any self-respecting super hero would do. He demonstrates a super sense of self preservation and legs it. Maybe he's not not so dozy after all! This leads on to level two, where we're presented with a barbarians-eye view of the action as the man himself runs (at an astonishing speed) from the castle, dodging strange monoliths and shooting the odd baddie.

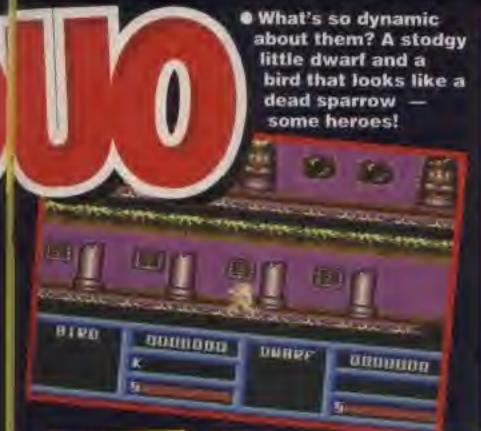

This bit owes more than a little to the age old Space Harrier but without the sprite (or the playability).

Having finally reached safety, Sav realises his mistake. He's just escaped from the very castle in which his girly's being held! Fortunately he then discovers he has a remarkable aptitude for E.S.P. Not wanting to go through all that hassle again he takes control of the mind of a passing eagle and guides it back to the castle to rescue the fair maiden. What a wuss eh? So it's on to level three. where you guide the eagle through the traps and nasties before locating the girl.

All three gamestyles have been seen before. Level Two's basically a 2D Space Harrier, level Three plays like Airwolf, and the runny/shooty formula of level One's been done countless times! Difficulty-wise the game's pretty hard, making for more lastability in the long run but leading to frustration for the first few plays. Having said that I found myself playing again and again to try and get just that little bit further Graphics are reasonable throughout, but the sound's excellent

raditionly a game review starts with the plot. Being a lettuce for tradition this one's no exception, so here goes (deep breath)...

The world, it seems, has a bleak future. With it's energy sources rapidly running out, a number of starships are launched to seek a new home for the desperate population. As usual with these kind of voyages, a formidable alien. power decides to be awkward and nick the ships for scrap! Unsurprisingly narked, the colonists decide to act - do they send a huge battle fleet, armed to the teeth and carrying thousands of troops eager to board the allen vessels? Tish! Why waste all that time and effort when one man and a pifflesome little fighter can do the same job? You've guessed it, that man's you and Hades Nebula's another vertically-scrolling shoot-em-up lobbie (sight)...

### EUCK to kill...

All the essential elements of the genre are here extra weapons, collectable shields, hordes of badly drawn enemies, etc. This is all well and good, but what happened to the speed? The allens effortlessly drift around the screen while your own weedy little craft's virtually static! Speed power-ups can be collected but they're lost when you die, and you die very guickly!

This one fault kills the game stone dead -

Yes, the sprites really are that bad. The backdrops aren't too pretty, either! it's almost impossible to get anywhere! It's a pity really, as it's got some good ideas. For instance when you collect a power-up it visibly attalches itself to your ship making it look very mean indeed, but what's the use of that when you've the life expectancy of a Spectrum mag?

Written (so Steve thinks) on Sensible's Shoot-'Em-Up Construction Kit and tweaked. it's certainly very professional. The background graphics in particular are really good, it's just a shame all that time and effort was wasted

sate It's down to Seymour to get the cameras rolling himself, but he's going to need help. Some of the people he meets around the place muck in but others are just a nuisance.

If you've ever played a Dizzy adventure (and if you haven't where in toasted-cheese-sandwiches have you been?) then you'll have a pretty good idea how Seymour Goes To Hollywood plays — wobble round collecting objects and dropping them in the correct places. For some inexplicable reason the programmers have seen fit to incorporate a very strange maze element in the studios section — it's all-too-easy to get hopelessly lost unless you painstakingly map every single step! This can be incredibly

frustrating and sent me diving for the reset button a couple of times, so be warned and have a pen and paper handy

Graphics are drab and sometimes a little flickery, and the screen update's virtually paralytic However, it's still reasonably playable and a dozen times better than Seymour's other adventuring effort.

After a terrible accident al looked to be lost for the lardy one, but (as the saying goes) 'We had the technology to rebuild him'. Now the inimitable turnip's back, bacder, faster and tougher than before! With his new-found bionic powers he must run round each single-screen maze, duffing or arresting the baddies. This is done (very satisfyingly) by grabbing them with his extendible bionic arm and hurling them against the walls. Get rid of them all and

There are lots of collectable power-ups to be
had, such as a bionic arm extension, bullets,
fireable handcuffs, smart bombs and the like, all
of which enhance Seymour's crime-busting
capabilities.

This is a real throwback to the old days of computer gaming. No sampled sound, no work-of-art sprites with fifteen frames of animation per limb; just compact, uncluttered playability (Steve says it reminds him of an ancient arcade game called *Berserk*, but no-one else in the office is old enough to remember it). Simply moving a poor sprite around a simplistic maze

tiresome, but all I can say is play it and then judge: Jolly good japes!

## STUNTMAN SEYMOUR

aving previously been the star of his movies. Seymour finds himself pining for a little more action. After some serious workouts in the gym, he emerges looking sleeker, smoother and nothing like the lardball we have all come to know and tolerate.

Now he's ready to swap the trappings of stardom for the thrills and (mostly) spills of being chief stuntman on four major new pictures. His job is to make it across each film set in as few 'takes' as possible, by leaping across platforms and avoiding the bad guys, making the most exciting action sequences possible.

The 'stuntman' theme's just a thin veil for a another platform shooty, a shameless CJ clone! Change the main sprite and no-one would know the difference. Not that that's a problem though. Graphics are clear and attractive and the eight-way scrolling's very smooth. Most importantly the game's great fun to play and the difficulty curve's pitched just

right. This is one that'll keep you coming back for sure, and just beats Super Seymour as the best game in the pack.

SUPER SEYMOUR SAVES
THE PLANET

eymour turns green, and it's not 'cos he had too many pints of lager the night before either. He's actually become afflicted with that most depressing of ailments, environmental awareness!

The world's in a heck of a state. Everywhere you look there's canisters of nuclear waste, piles of discarded rubbish, not to mention the mutated nasties who have grown up amongst the filth (sounds like the COMMODORE FORCE office). This is clearly a job for Super Seymour — taster than a speeding cow, braver than an anorak, and

a dedicated cape wearer to boot

Leaping from platform to platform on each screen, dispose of all the toxic waste and destroy the mutants by leaping on them, belly cutting them from underneath, or simply touching them and scarpering before they

explode — though tricky at first, you soon get to know which baddles need bashing in what way.

The game makes absolutely no bones about being a virtual carbon-copy of that old classic Bombjack but, as with Stuntman, why tamper with a winning formula? Seymour himself is back to his old podgy state but leaps about the screen with an ease unbecoming of such a porky persona! Each level has an attractive background giving an overall cosy feel and gameplay is both engaging and challenging.

## Conclusion

Splendid.

Two great games and two good games make Superstar Seymour a well-worthwhile buy, despit the obligatory duffer. Okay, so everything here's been done before — sometimes better, sometime not, but who cares with this kind of value? Search it out, you won't be disappointed.

Dear Brian.

I've just bought a new Commodore 64 and not having owned one before, I've a couple of questions...

THERE'S REALLY ONLY ONE CORKER

Dear Sir,

I am writing to you in the hope that you can help me find translation listings to turn C64 assembly language to machine code. People in shops look at me as if I'm speaking Swahili and I usually get the reply 'you don't need that sort of things for playing

Calm down a bit Roger and I'll give you th answer, don't try high street shops for serious 64 software, just write to Binary Zone PD at 34, Portland Rd, Droitwich, Worcs WR9 7QW. Ask them about the 6510+ Assembler, a program that turns assembly language into machine code and a lot more besides. Britisin

 Congratulations on buying the best home computer on the market and the best magazine to go with it! The C64 is one of the easiest computers for beginners, and it's always nice to help new owners, so here goes ...

 Turning your computer on and off is the BES way of getting ready to load a new game. Turn the machine off, leave it off for several seconds then turn it on again. This ensures the memory clear and gives you less trouble. With cartridge ONLY REMOVE OR INSERT THEM WHEN TH COMPUTER'S TURNED OFFI You could seriously damage the cartridge or the computer you don't follow this advice

2. RUN/STOP and RESTORE are special keys that most of the time are only used when programming or running BASIC programs. Unless the program's designed to return to a menu or title screen when these keys are pressed, don't press them while commercial

software's running. Most of the time, RUN/STOP's used to pause the action, wherea RESTORE's used less often because it Interrup everything the computer's doing and and can cause the program to 'crash' (a computer term stops working).

3. Monitor leads should work with the two outpr from the computer, so look in your local electronics shop (eg Tandy's or Maplin) for a fiv pin DIN plug to 3.5mm Jack lead. If shouldn't co much, and your picture/sound quality will be slightly Improved.

Brian.

# THE RETURN OF KEVIN

Dear Mr Strain,

Congratulations on the new mag, it's very good. Thanks also for printing my letter, the company you suggested were very good and after receiving the new chip I've got one of the Plus 4s running again after two-and-a-half years. So thanks once again for your help.

I need to ask your advice again; could you tell me where I can get books on programming the C64?

## PREMIUM BOND COMPUTER PROBLEMS

Dear Professor

Thave a C64 and a Centronics printer. My power cartridge has a Centronics driver and works quite well with my own programs and listings etc. However I also have a GEOS disk and find this combination doesn't work at al. Can you suggest an interface that would work with GEOS and where this can be bought? I did think of buying an Action Replay cartridge, but I'd first like to be assured that it works with GEOS. I wrote to Datel but got no reply.

### Ernie Forshaw, Wigan, Lancs

Sorry about the tittle. I couldn't resist the little joke about your name, but I don't mean to offend because I thave the solution; you don't even need an Action Replay cannidge! Load up GEOS and select 'select printer' from the geos menu at the top left of your screen. You see a long list of names. These are 'printer drivers'; and tell the computer how your printer works. The only trouble is that they were originally written for interfaces or printers that plugged into the SERIAL Port. However, help is at thand in the form of GeoCable Printer drivers: I ve sent you more details in the post (Eérnie enclosed an SAE with his letter; I can thelp you a lot quicker if you do likewise). Brian.

# STOP! DON'T DO

Dear Brian.

I've owned a Commodore 64 for the past two years, and I've enjoyed programming it. At the moment I can only do simple things — I used to have a book showing how to scroll from right to left and how to disable the RUN STOP key and prevent you listing the program. Alas, I lost it — can you help me with this little problem?

Also, could any of your readers help me the a book? It had a blue cover and an old-style Commodore 64 on it.

Here's a short listing to scroll the message in the string 'M\$' from right to left...

10 MS="READ COMMODORE FORCE EVERY MONTH"

20 M\$=M\$+ " FOR THE LATEST NEWS, PREVIEWS"

30 M\$=M\$+ " REVIEWS AND THE MIGHTY BRIAN!"

70 S=S+1: IFS(GT)LEN(M\$) THEN END 80 GOTO 50

If you want to change the message, it can be up to 225 characters long; just keep adding the line MS=MS+"(message)".

As for the book. I have a hunch it could be How to program the Commodore 64 by Robert Young, published by Interface Publications.

Then again, there have been hundreds of Commodore books and most of them featured the computer on the cover...

# MACRIA STATES OF THE STATES OF

I was crawling around under the MD's desk this afternoon (sweeping up - he makes me do all the dirty jobs), and guess what I found? The Lloyd Mangram Long Word Dictionary, or LMLWD for short! The cheeky blighter pinched it when I left, and used it to prop up the wonky leg on his chair. I was mortified, not to mention insulted! Needless to say I swiped it back when he wasn't looking, but I think he found out as I stealthily crept from the office, I heard an almighty crash followed by a blood-curdling screech (onomatopoeia - LMLWD) - our beloved leader had fallen off his chair (which was wobbling once more), and landed on his head.

## ROLE REVERSAL

Dear Lloyd.

I'm an avid C64 role-playing addict. Will US Gold ever complete one of their AD&D series on this format? I've been trying to get Secret of the Silver Blade for over 18 months. I've phoned US Gold who said. Don't worry, It'll be available in a compilation.' That was twelve months ago, and to my knowledge it has yet to appear

Longinally bought Pool of Radiance, Champions of Krynn and Savage Frontier on the understanding that I would be able to to purchase and complete the series on the C64. To my knowledge none of them have been concluded.

I feel that myself and hundreds (maybe thousands) of others have been conned by US Gold. I hope that you can find out what the situation is. I get the impression they've lost interest, which suggests they're dropping RPG games on the C64. I hope I'm wrong!

A Wood, Doncaster, South Yorkshire.

According to the person I spoke to. Savage Frontier was never released on the C64, Secret Of The Silver Blade never will be, and the only other available is Death Knights Of Krynn. Sorry! Role-playing buffs with a disk drive should check out the masterful Elvira II from Flair, but there's very little on tape at the moment. LM

## MISTAKEN IDENTITY?

Dear Commodore Force

Do you realise what you've done? You've given the greatest 64 mag in the world the same initials as that heap of cats vomit they dare to call a magazine — you know the one I'm talking about How could you do it?

Right, now that I've got that off my chest, here's a few questions for you:

 What is the best icon-driven game for the 64? Dunno, but Shards of Inovar on this month's REEL ACTION'S pretty good.

2) I notice that Software City had Parasol Stars in their list and I guessed you'd review it shortly. Alas, there's been no review and it's not in Software City's list anymore — what is going on?

The game's been delayed indefinately 'cos the guy who was programming the C64 version had his computer nicked, along with all the code. Adverts are placed long before a magazine hits the shelves, so Software City probably assumed (not unreasonably) that by the time you read the ad the game would be out. The rest, as they say, is history

Infocom are long gone, so where can I get a. copy of The Hitch Hikers guide? Perhaps you could put it on the covertage.

Look around. Infocom games are as rare as ZX81 owners, so you'll have to look hard! Finally, we can't put it on the covertape because (if my memory serves me right) it was disk only.

# REVISITED

Dear Folks.

I've been wondering about the letter titled 'Reset Revisited'. It says you can reset the computer with a joystick that has two cords. By any chance, can you reset the computer any other way? Anyway ere comes the old numbered questions. (and there go the old numbered questions! if you want to ask something, at least make it interesting. There's nothing worse than reading page after page of 'when's Sonic/Mario Supermarket Trolley with a Bust Wheel Racer coming out on the C64' and damned-fool questions about resets we've answered in the last five issues anyway)

Well, that's about raps it up for this letter, although there's one more thing. .... (snip — LM)

I'm old enough to have watched the home computer boom grow from the early days. I marvelled at Skramble (slc) and Frogger on the ZX81, blew my mind with the BBC 'B' versions of Planefold and Snapper, and was awestruck by Attack of the Mutant Camels on the C64 at the 1983. Your Computer magazine show (remember them?).

Things have changed since then, with some good computers like the Memotecti (very advanced for its time) and the Sord M5 never making it, and some right lemons like the Mattel Aquanus and the MSX range flopping dismally,

Throughout it all the C64's soldiered on and it's probably the last of the early 8 bit computers still around. Sadly though, it appears to be suffering now. This seems to be more due to the fact that software houses have given up writing for the old girl rather

than anything else, but alas, those wretched consoles have a lot to answer for

People seem to have torgotten what it was that killed off the original big league consoles, the Atari VCS and the Mattel Intellevision. It was the way both Mattel and Atari had a virtual monopoly on writing the cartridges for them and charged extortionate prices - even in 1980, £30 for Space Invaders was a lot of money! Home computers allowed ANYONE to write and publish a game, and at a decent price too. A good game for the

First of all, to input pokes you need a reset cart. They don't make ordinary ones any more, but Datel's Action Replay Mk VI does this and much, much more - they're not cheap at £35, but they're worth it. As to your other question, mentioning that Irritating, flea-riddled blue monstrosity is more than your letter's worth, but as you're new to computing I'll refrain from chucking it in the cylindrical filling cabinet. If there's anyone out there who doesn't know the score regarding Sonic, read my guiro. Any further correspondence on this subject will be seriously laughed at by everyone here at Commodore Force.

Don't you mean 'tutorial'? Anyway, what do the fans think? Would you like a training session with Brian 'you're 100%' Strain?

 I'd like to challenge someone at Subsonia. please

And I'd like a pay rise thank you!

4) Is Chips Challenge still available? If so, where from? How much? and how did you rate it?

Alas, Chips Challenge has been substituted - It couldn't be for putting in a poor performance as we all thought it was great, so hopefully US Gold will transfer it to Budget Label United pretty soon. Long live the Force

R Ford, Midhurst, West Sussex.

All this footballing fun and not a singly dodgy remark about balls — the ghost of Whiplash has finally been laid to rest! LM

CB4 would cost about £6 98 in 1983, whereas Atan and Intellivision still wanted around £30 for one of their Interior cartridges.

Now we find consoles ruling the roost again. We see extenionale prices (C49 for a game!) for cartridges which are strictly controlled by console manufacturers. Note how games like WWF and Bart Simpson are NOT available on cartridge for any system other than Nintendo, because Nintendo hold the licence to them. Notice how few Itt anish independent software houses are able to produce consule games, leading to the monopoly situation again.

Isn't it a big con that most consoles can be bought for under £100, making If very attractive to Mummy and Daddy compared with

those nasty expensive computers, but then they have to pay up to £50 for a game when they could have bought a C64 and paid miuch less (£2.98 to £12). Buying a C64 makes financial serves from day one. Sooner or later people will discover the delights of a wider range and cheaper software on computers and see the consoles in their true light, just

like they did in 1988. Until there we can only blame the sonward nouses for shooting themselves in the look, using the slightest excuse to put up the price of 116-bit software so it's almost the same price as carttridges. Only 8-bit games are significantly cheaper

I hope consoles get! the fate they deserve, le selling for a fiver at cair boot sales, and people realise what a manipullated and strictly controlled

ANNOYS Dear Sir. purchased your mag for my grandson, and I must say that I've never been so appalled at the quality. of the covertapes. They were supposed to contain games etc but all we heard was a dreadful I am returning one of the tape to you for your comments. Hopefully you can give me some explanation, and eithe replace the tapes or refund the money Yours faithfully Mrs Imlah, Tamworth, Staffs. No, you can't be serious! This can't be a genuinely agrieved reader, it must be Steve playing his April Fool joke three months early - I mean, no one could be thick enough to put a computer cassette into an audio unit ... could they? Are you sure this isn't down to you, Shields? - LM

For the benefit of Mrs Imlah (and anyone else who hasn't two marbles to rub together) our covertapes are for Commodore 64's, and the 'dreadful noise' you heard is actually a

computer program! What sort of games did you expect? Ring-a-ring-a-roses? Simon Says? Anyway, congratulations on winning this month's pilchard - without a doubt, yours is the funniest letter we've ever had!

con they are it hope I don't have to show many more people my C64 and get comments like 'Wow, I didn't know games were so good on these to prove their interiority.

With regards to the C64, is trreatly a dving preed? Are software houses really giving up on it? There's certainly been a marked decline in the number of games released, but will this continue? I don't know what the future holds, but indibe a shame to see the C64 die in favour of consoles.

Yours Mr Clark Denham, Watford, Heris

The MSX? No good? I can't agree, I thought they were okay but badly marketed. I couldn't agree with you more about consoles being restrictive, monopolistic and too bloomin' expensive, though! Nintendo, for example, have veloed carridge releases of WWF on any system other than their own, and it's even been suggested that they've tried to stop publishing companies releasing magazines for Nintendo users!

As for your final point about the C64 market dying in favour of consoles, rest assured it won't happen. Console owners may have a huge range of carts to choose from, but most of them are bog-standard shooters or platformers — all the imagination and innovation comes from the home computer scene. Console-mania is a passing fad that'll soon be as obsolete as the Hula Hoop or flared trousers, and the Beyond Bellef feature in ish 1 should allay all our fears about the death of the Commodore market.

Praise indeed... as we can't get any better we might as well rest on our laurels, get lazy and self indulgent, and let the magazine go downhill! Only joking — COMMODORE FORCE is the best magazine of its kind, and rest assured we'll keep it that way!

A word about magazine quotes — it's best to take them with a pinch of salt, even when they're from COMMODORE FORCE. For example, we might say 'Despite its outstanding graphics, this is the worst game I've seen this year. Playability is zero, and you won't load it twice'. An enterprising software company might then print 'outstanding graphics — COMMODORE FORCE'.

The only way to be sure about a game is to keep reading the mag and take heed of the reviews.

## KIPPER KONTENDER

Dear Commodore Force.

As you're the suppliers. I feel I must complain an warn other readers about your datasettes. The other week I was trying to play my favourite must tape in my computer cassette player, and not on did it not work but it also chewed it up! Because was old I won't send you a bill, but what's the point having a cassette player that won't play music **Paul Bailsgrab** 

You're lucky you didn't make kipper of the month with this one — the point in having the cassette player is to load games into your Commodore 64! That's all it does, and all it was ever intended to do. You're right when you say it won't play music tapes — the C64 designed to work with only one sort of tape drive (the datacorder), and because of this, it can't be connected to an amplifier. Besides wonly distribute the datasette, we certainly didn't design it — so ya, boo, sucks to you!

## WAGGLEMANIA

Dear Lloyd

l am just about sick of Wrestlemania. Il know it's got brilliant graphics and stuff, but I hate joystick waggling. I've broken three joysticks 1/1/ so far! Now some questions:

1) Why the hell don't they bring out Super

Asargh — gibber gibber!

2) Does anyone know of any tips and cheats for Bart Simpson, Dizzy Down The Rapids, and Treasure Island Dizzy?

Thank you and Goodnight!

rou're a miserable bunch of so-and-so's, aren't you? This year I got the sum total of ONE Christmas card (thank you, Stephen Horn). It's my birthday in March, and if I don't get a better response I'm off again! Now I've got that off my chest, let's get down to some serious moaning. I'm sick to death of reading 'when will Sonic The Hedgehog or Mario be released on the C64. THEY ON'T — EVER! Sega and Nintendo have seen to that! Creating strong, cartoony characters, hyping them for all they're worth and not licensing conversions is basically a marketing ploy to get you to by one of their machines! I wouldn't bother if I were you — when you get bored of the admittedly-excellent graphics, the games themselves are no better than their C64 equivilents, just more expensive (see letters this ish). Do yourself a favour — treat yourself to a copy of Creatures or Flimbo's Quest instead.

I WON'T BE CONSOLE-D

Dear Lloyd

I'm a loyal C64 owner and I'm writing in anger because of the so-called console take-over. For a start, the major software companies are almost ignoring computers, concentrating on producing cannidges for Nintendos and Segas. For the life of me I can't understand how the've become so popular. Ok, the Sega Megadrive and Super Nintendo are reasonably priced at £130, but the games are nearly all between £35 and £50. I couldn't believe it when I read Street Fighter 2 (Super NES) is £65. How can Nintendo justily such a price?

I'm also annoyed that Commodore seem to be phasing out the C64 by dropping the tape deck. I leel the C64 pack won't sell well this Christmas. unlike the pack I got in 1990. The fact that not as many new games are being released doesn't help. The majority of today's games are budgets. Don't get me wrong, there's some great budget games, but there haven't been enough big releases lately - theire's only Nobby the Arrdvark, Robocop 3, Creatures 2 and a handful of others.

Hopefully we'll soom see a flood of new C64 releases. If not, then I lear by mid 1993 the C64 market could disappear

Jim Johnston, Dwnbartonshire, Scotland

I agree the Datassetteless (LMLWD) package was a daft lidea, but it doesn't mean Commodore are phasing out the C64. The

# 60 STREET FIGHTER

Right out of nowhere, Kixx's ageing also-ran Street Fighter hits the top of the charts. It's not a particularly good game (to say the least!), so we can only assume it's benefitted from the hype surrounding the sequel.

Whether that's any good or not remains to be seen — stay tuned for a full review next ish!

nough of this football banter, let's look at some PD. Since you've only been in on the scene for a few issues and the scene's been around for decades (well, at least one), it's hard to give an idea of what's difficult and original and what's easy and cliche. It's tough enough giving the 'feel' of a demo when we can only show a few static screenshots! My plan for the coming months is to review some Golden Oldies, and get some ace demos for the covertage - only then can you can hear the fab music and see the complex routines in action. Don't miss the next few issues... but you wouldn't do that anyway, would you?

come time ago there was a regular TV show on German television dedicated to computers and their peripherals, software, demo scenes, etc.

It was called HIGHSCORE, and they organised demo competition for the C64, Amiga and Atari computers. The prizes weren't up to much (two games and a joystick), but the winners from each of the three categories battled it out for the biggie,.. the PC on which Leisure Suit Larry 2 wa programmed (the Larry games are THE most popular RPG's on the PC, featuring a clumsy adult going through a mid-life crisis, and

his is a demo that

Blackmail

makes you want to stand up, sing the National Anthem and generally be proud to be

Dutch (something has to - Dep Ed).

BLACKMAIL earned their coding wings three or four years ago when they released Sophisticated 3, a demo which included the world premiere of FLI (Flexible Line Interpretation), a routine which enables you to use all 16 colours in a single character instead of the usual four. Not surprisingly Sophisticated 3 spent a long time at Number One in the demo charts!

They then got to work on a project they claimed would put Sophisticated 3 in the shade. Everyone said it was impossible.... until they saw Dutch Breeze, without a doubt the best demo released for ages! It doesn't contain the

revolutionary coding of Blackmail's previous demos, but the aesthetics are far superior - the music was composed by big name musicians such as REYN OUWEHAND and JEREON TEL, and the graphics were drawn by the best design

desperately seeking a woman). Anyway. Thiat's Design won the C64 category and eventually the PC as well. beating RED SECTOR's mindblasting Amiga demo Cebil '90 and a rather obscure Atari raster demo.

It was rumoured at the time that a CRAZY member also worked for the TV station, and the whole thing was fixed no one's sure who started the rumour, but there's no getting away from the fact that CRAZY produced an excellent offering that deserved to win on it's merits.

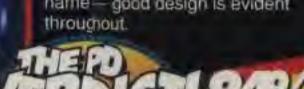

That's Design's very well put together, with excellent graphics, music and coding. The first part features the official HIGHSCORE logo and a

scroller. The unusual thing about this part is that every different scroll-text writer has his own music, so, when GOTCHA's typing you'll hear a. funky tune, and TYCOON has slow music... a novel idea, but somehow it doesn't really work in a demo. Maybe they should try in a soap? Every character with it's own background tune... some Brazilian soaps already do, apparently!

The second section features a very big CRAZY

logo, each letter taking a full screen and containing a picture. No bodacious graphics though, they're saved for the next part, which features some awesome FLI graphics swinging across your screen. You get Michael Jackson's face, a logo and a temale image, all beautifully drawn. The

last (and most important) part is styledlike a movie, starting and finishing with the credits. Although it's very short (Herbertzan, Tarzan's tailed son, tries to emulae his father's actions and ends up slamming into a tree), it's interesting enough and the movie illusion is maintained throughout. That's Design's an okay demo whichcertainly lives up to it's name - good design is evident throughout.

team the scene's ever seen - DIARTI

Part one honours the great artists on the machine, showing over 20 title-screens of well known games such as Hawkeye, Hammerfist and more. Later sections

feature FLI-pictures shwing the work of some of the best fantasy-artists n the world, and there's some interactive (albei naughty) stuff as well!

The best thing in Duch Breeze is undoubtedly the wonderful animatel sequence showing a dragon flying over a Ditch landscape (you mean that volcanic wastelan's HOLLAND? Remind me not to go there for my lolls - Dep Ed). Words cannot describe the slik presentation found in all nine parts.

# BRAINSTORM 3 • MegaStyle Inc

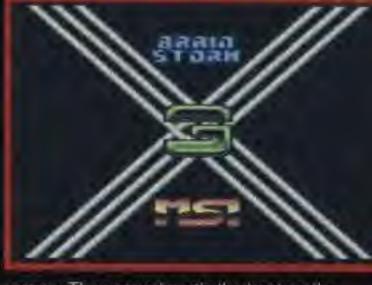

his demo takes us back a few years (1988 to be exact), but it can still go fifteen rounds with the demos of today.

When Norwegian group MEGASTYLE INC release a demo it's usually a classic, perhaps because they take their time instead of rushing them out as fast as possible. They time their releases well too, always releasing a follow-up just as their previous outing starts to slide down the charts. But what would you expect from a group with the brilliant SPARKLER on graphics and the equally excellent SCROLL programming? As they're brothers they can think

on each other's wave-length, resulting in some radical stuff.

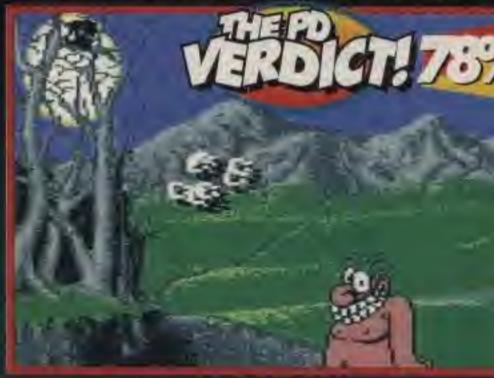

The demo starts with the Amiga boot screen (the hand and the workbench disk), and immediately loads the intro where the MSI and Brainstorm logos swing across the

screen. The second part's the best on the demo; a static background with some nice mountains and trees becomes intested with small sprites, cartoon characters and other weird and zany stuff. Other sections feature dycps which, although old hat now, were extremely original and difficult at the time. MSI used two in this demo, but the current record's about 100. Dycps are considered 'lame' these days, as is trying to top other group's records nowadays interesting design and radical new effects are in vogue.

Apart from some blinking eyes and a mirrorscroller, only the ending's really special. You see a great test-screen which lasts about a minute before crashing into some HDTV snow.

A closer look at the demo shows it to be little more than a slide-show, but it's brilliantly executed and the graphics are exceptional. Dutch Breeze may have taken three years to complete; but it was certainly worth waiting for

 a must for your collection

clussic demos. Next month there'll be a full report of a real compute puriy, held in Denmark. You'll meet some of the COS stene's leading pluyers, yet the lewdown on the dame rearest and, of reeres, I'll be reviewing the Diming entries — thesh BECCHINGS IN next mentil, and farget
